

# WIRELESS COMMUNICATIONS FOR GOVERNMENTAL AGENCIES

Independent Consulting Engineers

Access Engineering (AE) staff has 34 Years Experience Designing Point-to-Point, Point-to-Multipoint Wireless & Microwave Systems.

- Public Safety & Mobile Data Applications
- Community Broadband Networks
- Cost Studies
- Topographic Line-of-Site Surveys
- Equipment Evaluation & Testing
- RFI, RFP, RFQ Preparation
- Proof of Concept
- Tower Design & Loading per ANSI/TIA-222-G standard
- Transmitter Saturation/Footprint Calculations
- Grounding Systems

AE does not sell equipment, materials, or construction services, nor does AE represent any specific contractor or manufacturer. AE will work on your behalf as an Independent Consulting Engineer. We develop plans and budgets, we complete engineering & permitting requirements, we create public bidding documents, and we manage the entire process through completion.
